

– ALBERT LEA 2020 GLOBAL SUMMIT-

Corn, Cannabis & Bio-science Re Invigorating Rural America Albert Lea, MN 14-15, 2020

Ramada Inn & Quality Inns and Suites

2301 East Main

Albert Lea, Mn 56007

507-473-2112

(Special Conference Room Rates Available)

Contacts: Dean Goette (507-456-1041, deangoette@hotmail.com)

Andy Skadberg (309-428-2509, anskadberg@gmail.com)

Steve Gruhn (712-330-3114, sgruhn@gmx.com)

What is it about?

A one day conference that will bring together experts, technology and wisdom that will inspire and drive the new rural economy forward with new technology, crops and vision.

Who will be there?

Growers – corn, cannabis, greenhouse growers, soybean & small grain sharing their knowledge and experience on how to lower costs, increase productivity, all leading to greater success and income.

Entrepreneurs – Developers of new technology for processing hemp, grain and agricultural byproducts as well as on-farm energy, battery and transportation, and food production

Experts – Agronomy, Livestock, Technology, Cooperatives Bio-science, Nanotechnology, Carbon sequestering

Who should attend?

Anyone with an interest in the future of America and its position leading the world in agricultural innovation including farmers/ranchers, bankers, entrepreneurs, educators, investors, and regional, state and community leaders.

AGENDA (tentative)

Thursday, February 13, 2020

Time: 4 pm – 6 pm

- 4:00 Dean Goette Welcome, settling in
- 4:30 Tom McClain Setting the Stage/Opening remarks
/Andy Skadberg
- 5:00 – 5:30 Craig Lee The Vision – History and Opportunities
- 5:30 – 6:00 Steve Gruhn Agenda for the next two days, format, networking

Evening Free

Friday, February 14, 2020

- 7:45 Welcome, settling in
- 8:00 Panel discussion (Tom, Steve, Monte, Craig, Montana, other states?)
- 9:00 Steven Gruhn Biochar/Hempcrete/Vinegar/Carbon Sequestration
- 10:00 Howard Barrie TerraQuest, Remote Sensing, precision farming
/Andy Skadberg
- 11:00 Zac Wright Soil Building and Hemp
- 12:00 Lunch and Chuck Horn Solid State Pyrolysis, NeetCoat, Nano Ridge
or Joseph Harris Containerized systems, New Orleans, international
- 1:00 Robert (Bob) Albertson, Jim Smith, Randy Schwake,
Carbon/Graphene battery from hemp biomass for battery technologies
- 2:00 Kevin Klungtvrdt, Carbon nanotube technology
Kurt Knappen
- 3:00 David Cannon Gelatida.com - Hemp infused Gelato ice cream
- 4:00 T Wayne Green, Dennis Moore, Cecil Massiy, Larry Kruse
Nutritein - Field corn to Food corn and Hemp

Open networking, group meetings to discuss next steps

Evening Free

AGENDA (tentative)

Saturday, February 15, 2020

- | | |
|------------------------------------|--|
| 8:00 am – 6:00 pm | Formal presentations |
| 8:15 | Welcome, settling in |
| 8:30 Dean Goette, | Local farm issues, various projects, farmer co-op |
| 8:45 Steve Gruhn
/Monte Bertsch | Custer, SD & Strasburg, North Dakota, processing, biochar/vinegar |
| 9:45 Break | |
| 10:00 Craig Lee | Key Note Address / State of the U.S Hemp Industry |
| 11:30 Cameron Kabe | Insurance warranty certification + Banking/funding |
| 12:00 | Lunch |
| 1:00 Zach Wright | Soil Health, Hemp and lowering out of pocket costs |
| 2:30 – 2:45 | Break |
| 2:45 Dan Pavich | SymbiosisAG, Redeemer (fish bio-stimulant) |
| 4:15 Tom McClain | Combining remote sensing and precision farming - rapidly developing methods for efficient and effective technology application on the farm |
| 5:00 Panel discussion | Answering questions – where do we go from here – hooking links of the chain
Craig Lee, Tom McClain, Steve Gruhn, Monte Bertsch, Dean Goette |
| 6:00 | Concluding remarks, what's next, the online resource center, Andy Skadberg
